

Toys Are Your Forever Friends

(Writing a film Review)

The story is about Andy, who has grown up and his old toys. He is preparing to move to college. The main characters are Woody, Buzz Lightyear, Lots-'O'-Hugging Bear and Jessie.

The film is an animation. The story is about the toys' owner Andy, who has decided to send away Woody. He packs the other toys in a garbage bag. He intends to store them in the attic. However, Andy's mum mistakenly puts the bag on the curb. Woody tries to clear up the misunderstanding. When the toys are about to be taken away, Mrs. Potato Head sees Woody through her missing eye. She sees that Woody is looking for them. Finally Woody goes back and saves them.

I like this movie. It has an amazing story. When Buzz is set to demo mode, it is so funny.

One of the reviewers said that, 'He loves the bear. They baby is horrible. However, the story of this animation is great. The ending part makes me cry. I want to watch Toy Story 1 and 2 again after watching Toy Story 3.' If you love toys, you will definitely feel the same.

Alice In the Wonderland

(Writing a film review)

Alice loses her beloved father. She had to face her father's new marriage. She felt confused. She ran away and chased a rabbit. She fell into a hole. She started her strange journey. She met people like the Red Queen, her personal milliner, Cheshire Cat, Mad Hatter and March Hare.

I think the story is very strange. It is because Alice was the person who fell into the rabbit hole. In the hole, there were many people. In this story, Alice couldn't go up the hole easily. It was so strange.

Mia Waiskowsha (played the role of Alice Kingsleigh) said that 'When I was a kid, I wouldn't understand it.' Johnny Depp (played the role of Mad Hatter) said that he tried to find a grounding to the character.

If you like fairy tales, you should go to watch this film.

Toy Story 3

(Writing a film review)

Today, I watched a wonderful film in Shatin UA Cinema. It was an animation. The movie was Toy Story 3. It was the third sequel. After three years, my favourite characters were back. This time, they had to deal with many problems.

The story is about Andy and his toys. Now Andy has grown up. He is going to study in college so he has to leave his toys behind. The toys want to make a plan to go with him but they are mistakenly sent to the dumpster. Finally the toys are sent to a kindergarten. They want to leave the place. The story is just the right mix of fun, interesting story and touching scenes.

If you have watched Toy Story 1 and 2, you should not miss this one. If you haven't seen the first two films, go and get the DVDs and watch them. You will definitely love the series. It has the best animation I have ever seen.

One film reviewer said, 'I laughed when Buzz Lightyear started to speak Spanish. Mary, another film Reviewer said, 'I wanted to cry when the toys were going to be destroyed.' My recommendation is you should not miss this wonderful film.

2E Choy Wing Ki

Finding Nemo

(Writing a film review)

Finding Nemo is an animation. It is a comedy. The directors are Andrew Stanton and Lee Unkrich. The film is about the life of a clown fish.

The clownfish was called Nemo. His father was called Marlin. He tried his best to protect his son. Nemo was caught by a dentist. The dentist gave Nemo to his niece, Darla as a present. The dentist put Nemo in a fish tank. Nemo tried to escape from the tank with other fish.

The dentist lived near Sydney Harbour. Marlin wanted to find Nemo. He met a fish called Dory on the way to Australia. He was forgetful. They met a shark. Marlin and Dory thought the shark would eat them. But the shark let them go. Then they met some jellyfish. Later he met a turtle, which showed them the way to Sydney Harbour.

Some film reviewers said that 'The movie is so fun to watch. They picked a great vocal cast and have the best writers.' The movie is a great success.

If you want to know the ending, get a DVD and watch it at home. The film teaches me to respect life. We need to protect wild animals and their habitat.
