# A five day trip to Thailand

*3D Lai See Man*

Last week, my family had gone to Thailand with me for 5 days. This trip was cheap. It cost only \$3,000. We took a flight of Thai Airline to Bangkok. The aeroplane arrived at 4:00 p.m. and then we went to the hotel to check in. After a good sleep, we started our journey the next day.

First, we had a boat trip along the Mekong River. There were people selling and buying things on the boats. But we thought the trip was very boring.

On the second day, we went to the Grand Palace. The King and Queen of Thailand and the royal family are living in the palace, which is a very beautiful place.

On the third day, we went to Lopuri Monkey Temple. There were many naughty monkeys which made me very unhappy.

On the fourth day, we went for a ride on an elephant. I felt scared but it was fun.

On the fifth day, we went to the swimming pool in the hotel, but the swimming pool was dry. It was so bad. After that, we came back to Hong Kong.

It was a wonderful holiday, though with some disappointment.

I believe that all of you cannot realise how hearing impaired people feel.

A young female teacher committed suicide by jumping off from the twenty-second floor because of the unbearable pressure. She had been deaf when she was small because she had a fever which had not been cured in time. In her past, she could not adapt to the school life in Form one. She was teased by her classmates and her academic result was at the bottom. At that moment, she wanted to commit suicide, but she gave up because of the lack of courage. Then, she understood and she worked hard alone. She had an excellent academic achievement later on. When she was studying in the university, she had enormous stress. This circumstance had no improvement even though she had been working hard. Despite of the help from Samaritan Befrienders, the illness had not been cured.

After she had graduated from the university, she sent almost 200 application letters. Although she considered her interview techniques were not good enough to secure a job, she revealed that she was distressed by the others' discrimination. For example, some of the employers do not employ women who have physical disabilities.

Citizens should introspect why this tragedy occurred. No one wants to be imperfect. Why can't we be thoughtful, can we?
