

Beautiful Schoollife

5B Fung Kwan Ho

I have studied in Sun Fong Chung College since 2002. Time flies. Now, I am a Form 5 student and I need to prepare for the HKCEE. Although I have got a lot of work to do every day, I still enjoy my beautiful school life.

I remember that when I studied in Form 2, I joined an exchange visit to Beijing. That was my first time to go to Beijing. I would like to say thanks to Sun Fong Chung College for giving me this chance. Everything in Beijing was so unforgettable. I made a lot of new friends and I learned a lot from my favourite teacher who teaches me Chinese History.

Mr. Kwok is a nice teacher. Everybody finishes Chinese History homework and passes the test with flying colours. I remember that I failed my exam in Form 3. I felt so upset that, I wanted to give up. However, Mr. Kwok did not punish me but he encouraged me to read more to broaden my horizon. I could never imagine that Mr. Kwok was so kind. After that, I have never failed in my Chinese History exams. It seems like I have got the power to study Chinese History. I tell myself that I cannot fail in the exams.

Five years of school life was really unforgettable. Sometimes when I was walking around the playground or stairways, some pictures of precious moments came to my mind. My school life memories are a mixture of joy and tears.

Although Form 5 is a difficult year for me, I still think the year is rewarding and fruitful. I love my school because she helps me build up self-confidence. I think it is the most beautiful part of my life. Indeed, I promise to myself that I must study Form 6 in this school.

At last, I hope all Form 5 students have a bright future.

My School life

5B Chan Hon Chung

I am a graduate of Sun Fong Chung College. I have a good memory in this college. When I study in this school, I can learn many things in different subjects. I learn useful knowledge in my life. Also, I learn how to improve and keep good relationship with my classmates. This memory is unforgettable.

Firstly, I want to share my feelings about this college. Since I was a F.1 student. In F.1, I was very scared. But luckily this college had a social worker. He told me how to improve my attitude and when I was a F.2 student, I made many friends. My problems faded away and I had confidence.

Also, if you have any problems, you can talk to teachers. They can help you solve problems. I suggest you can find and talk to Miss Ng Lai Fong. Miss Ng is very kind. She always helps students, and she is my favourite teacher, too.

Furthermore, I remember one experience. My classmates and I were in a board design competition. On the last day, we worked industriously to decorate the board in our classroom. Although we lost in the competition, we were not sad at all. We were elated to have lessons with our class teacher. We never gave up in this competition. This is my wonderful experience.

At last, in this college, I have all the happy, sad and unforgettable memories.

My Study in School

5B Kong Sai Ho

I am a F.5 student in our school, Sun Fong Chung College. I've studied here since 2003.

For these five years, I have learned many things. Not only I learned from subjects, but I've learned to make friends and how to improve my social skills.

Do you believe you can destroy everything when you can't control yourself in anger? When I was in F.1, I hit a classmate with a chair. This chair broke the windows. In my memory, I broke all windows and split the notes which were on the board. I remember I had to pay \$1400 for them.

I did not like studying when I was young. Now, I try to study by heart. I guess you may want to ask me why I study by heart. Let me tell you the story behind. When I was in F.1, Miss Ng, my English teacher encouraged me to study English from time to time.

I think my school is like a castle. We have a great sea view and there is a hill behind our school. We can't go out for lunch but there is fresh air. These are good conditions for our studies.

Where do I like?

5C Ho Lok Yan

Tai Po is the best district that I have ever been. It is because I was born here and have been living here for sixteen years. There are many memories with my family and friends.

The estate where I am living is close to the Lam Chuen River. There are a lot of trees and plants alongside the river. The sun shines on the river surface. It is like shiny jewellery on the water. Sometimes, I go to the riverside to relax with my family. Also, there is a basketball court near my building. Some kids and teenagers play basketball there every weekend. There are crowds of people during the Mid-Autumn Festival. People sit together and play candles and games.

There is a rubbish station in front of the court, but it is clean and not smelly. It is because the staff always deliver the rubbish to the landfills and clean up the ground many times each day. The station door is closed almost all the time. The cleaning staff has maintained a very high quality of hygiene and we who live here are pleased.

A shopping mall is behind our building. It is the biggest estate mall in Tai Po. In the mall, there are many types of shops, such as shoe shops, fast food shops, restaurants, famous fashion outlets and so on. It is crowded every day. This is because the estate is near the MTR station and the bus stop.

I love this place very much because there are lots of memories with my family and friends. I will never pollute this beautiful place and I will protect it forever.

My Studies in SFCC

5D Lau Tsz Shan

This is my first time to write an article and I want to talk about my studies in my school. I remember that the first time I went to the school, I was so afraid. Everything to me was so new, until I met a teacher called Ms. Man. I know my life here was changed by her. She was my English teacher when I was in Form One, but I appreciated her, as she helped me a lot, both in English and emotional support.

Do you like Sports Day? I think I was so frustrated on Sports Day. When I was in Form One, I helped my class run the 4 x 400m. Unfortunately, my class lost although we were the winners. Do you know why? This is because I ran in the wrong lane. So after this race, I cried all day. All I wanted to say was 'Sorry' to everyone.

At this moment, Ms Man ran towards me and said 'Although you ran in the wrong lane, the most important thing is that you can learn from your mistakes and have an enjoyable time during the competition'.

Until now, I've remembered this well. Ms. Man gave me encouragement and I will always remember that she was the person who made me feel that school is a big family and that I am also one of this big family too.

My School

5D Wong Jin Hin

My school, Sun Fong Chung College, is an unforgettable place. I have been here for the last five years. Soon, I have to face the big challenge of the HKCEE. After this, I may never sit in the classrooms anymore. So I am writing this article to express my feelings about school.

Sun Fong Chung College means a lot to me. I have a lot of different kinds of memories. Some are good ones and some are bad ones. No matter they are good or not, they are all part of my life. In this school, I've learnt how to be a man. I've also learnt that it is important to be honest!

Even that I am not the best student and I do not have good marks in exams, I can still find my talent and I appreciate the teachers' help.

This summer maybe I will walk out of that gate where the Principal always stands and greets us, and I'll never look back. But I am sure that if people ask me about my school, I will speak 'Sun Fong Chung College' in a loud and proud voice.

My Fantastic School

5D Ho Tsz Kei, Sindy

Our school is very special. It has a beautiful view of Tolo Harbour. I feel no pressure at all when I come to school every day.

My favourite teacher is Miss Lam. Since my Chinese Language is not good enough, Miss Lam keeps giving me practice and teaches me how to deal with the reading paper. Miss Lam keeps giving me the answering skills and oral skills. My Chinese Language has improved a lot and I feel grateful for what Miss Lam has done.

I think our school is a very unique school in Hong Kong. Besides the Putonghua teaching, another special thing in our school is that the teachers here suffer more stress than us. They care about us. No matter what we do they are always willing to give us chances. I believe many students feel the same way as I do.

There are many useful facilities which help us with our studies like the School Library and the Computer Rooms. Furthermore, our school has an English Garden on the first floor. This is a very good place for us to communicate with teachers or schoolmates in English. This helps us a lot with our English skills. Many students including me feel more confident and are not afraid of speaking English anymore.

I feel lucky that I got into this school. I have a lot of friends here and we help one another with our studies. I hope we can all improve together. And I want to say thank you to every teacher in our school. Thanks for being such great teachers and I will never forget you!
