

*2B Chan Hai Ting, James*

This film is called Bean. It is a comedy about a very stupid guy called Mr Bean. I liked it a lot because all the silly parts make me laugh.

The film begins with Mr Bean driving to an examination center. When he was in the examination room, he started boasting to the person next to him. In that part of the film, I thought it was great fun because he was doing silly things such as stealing pens, taking out clocks, pink panther and dolls. Then, the exam starts and he uses all the ways to cheat to get the answers. Does he make it? You should see. You will like it!

My feelings for this film are that it was silly but funny. The cheating part was the best.

My friend thought it was funny. He laughed so much and said the blue car looked odd.

I think this kind of comedy suitable is for all families. Hope you will like it.

*2B Chan Yan Ki, Steven*

The film is based on the true story of Mari and the three puppies. Mari managed to rescue her old aged owner in an earthquake which struck Nagoya in 2004. Mari saved the master. But she had to be left alone. Later she gave birth to her three puppies. Could she take care of her puppies? You can find out the ending of the story after you have watched this touching movie.

Two fictional characters have been added to the film. They are a young girl, Aya and her brother. This makes the movie more accessible to the audience.

Hope you will love the film.
